

## FASS Faculty Conference Travel Funding

Funding for the FASS International Conference Travel program is specifically designed to supplement costs for travel to international conferences. International conferences are defined as those that either take place outside of Canada or are major conferences in Canada. Preference will be granted to those who demonstrate how participation in an international conference will support their career development and research capacity.

Value: Applicants may apply for up to \$2,500 to supplement their travel expenses.

### Grant Term:

Application Date: November 15, 2024  
Award Start Date: January 1, 2025  
Award End Date: December 31, 2025

All tenured and tenure-track faculty members in the FASS at the rank of Assistant Professor (Research stream) or higher are eligible to apply to this program. Please note that for all grant applications the term of the applicant's appointment must extend beyond the length of the tenure of the grant.

Preference will be given to faculty not currently holding external or internal funding awards and who did not hold a conference travel grant in the previous year. **All applicants must have applied for a SSHRC Explore and Exchange in the current year** (deadline Aug. 31) (unless they are ineligible for that award, having held an E&E grant in the previous three years).

Faculty in the Education Leadership stream are invited to apply for conference funding through the FASS Educational Leadership Stream Research Award.

### How to apply:

In one PDF file: Provide a description of the conference, how participation will support career development and research capacity, a paper proposal (and acceptance, if confirmed), a budget, and a copy of your c.v. to [fass.research.ubco@ubc.ca](mailto:fass.research.ubco@ubc.ca)

**Note: before funds can be released, confirmation of the paper's acceptance must be provided.**
